

## Example 29

## Conditions

A steel plate was being transported using a universal screw-type clamp whose swivel jaw was missing. It slipped out of the clamp and fell.

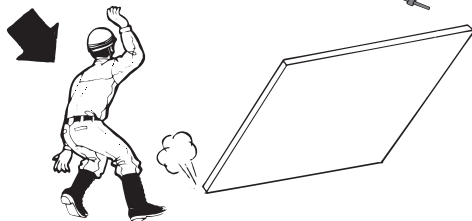

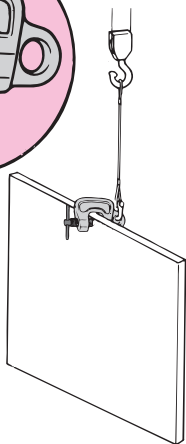

## Results

Models: SBN (SBE)

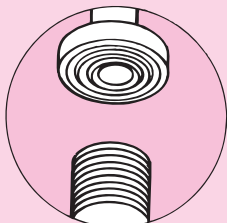

### Similar applicable models

SBB (SBBE) and  
SBb (SBbE)

## ⚠ WARNING

- Conduct daily inspections.
- Do not use defective clamps.

- The swivel jaws of Models SBN, (SBE) and SBB (SBBE) are the most important parts for producing a clamping force. Replace deformed, worn or faulty swivel jaws.
